

LUNAR LIGHT CANDLES

"Candles Of A Scented Nature"

CARE THERAPY™ is simple. Care for yourself and those around you, whether they are friends or strangers. Daily we need to give and receive care. The purpose of each candle has been carefully chosen to spotlight on each "life area" that we face. The candles are complimented with various aromatherapy oils, spices, herbs and flower petals.

In a world that can sometimes seem dark, CARE THERAPY™ is an offering of light to help show the way. Caring will add to the center light that is our soul.

Each Care Therapy Candle™ is created with various oil blends, spices, herbs & flower petals and accompanied by an affirmation.
